**TOPIC:** Everything You Want to Know About Autism in  
One Hour

**PRESENTER:** Abbie Wheeden McCauley, Ph.D., Director  
of Family Child Learning Center's (FCLC) Preschool for  
Children with ASD

We have all heard so much about autism and it can be overwhelming. But what really is an Autism Spectrum Disorder (ASD)? Please join us for an opportunity to learn more about topics such as:

- What is Autism Spectrum Disorder?
- How is it different from a language delay?
- What are some red flags I might see if my child has autism?
- How is it diagnosed?
- What can I do as a parent to help my child?

We will also have time for questions/answers after the presentation. We look forward to seeing you there!
